

ENGL277 Letter of Appeal

At SDSU, ENGL277 with an adequate AP Language and Composition score, and a speech class, are sufficient to fulfill general English requirements for STEM majors. This was a three credit English course that focused on professional writing. Proper formatting, grammar, and conduct of common technical documents like: instructions, professional emails, memos, cover letters, etc. This class also included a significant amount of peer review and presentation, again under professional expectations. Accompanying this document you should find examples of assignments I completed.

Class in Question: SDU:ENG277

Argued Goal: WSU:GOAL 1

Arguments of Appeal:

1. Course Goals Align
2. WSU wants me to take a 1 credit research writing course. I've already completed this 3 credit writing course that included a research paper (mine was on voice synthesis).
